Marysville, WA

Summary

Graduate student pursuing a Master of Science in Geographic Information Systems (GIS) at the University of Cincinnati with a Bachelor of Science in Earth and Environmental Science. Experienced in GIS based spatial analysis, environmental mapping, remote sensing interpretation, watershed analysis, and geographic data visualization. Skilled in applying GIS methods to analyze environmental systems, land use patterns, and hydrologic processes. Interested in environmental GIS, water resources, and spatial data analysis.

Education

Master of Science in Geographic Information Systems (GIS)

University of Cincinnati Cincinnati, OH
GPA: 3.9/4.0

08/2026

Bachelor of Science in Earth and Environmental Science

University of Illinois Chicago Chicago, IL
GPA: 3.7/4.0

12/2024

Cum Laude

Honors:

- Honors and High Distinction in Earth and Environmental Science

Associate Degree in General Science

Harper College Palatine, IL
GPA: 3.8/4.0

07/2021

Skills

GIS Spatial Analysis, Hydrology & Environmental Mapping, Remote Sensing, DEM Processing, ModelBuilder, Cartography, Python GIS (Coursework)

Experience

University of Cincinnati

Graduate GIS Project Experience - Cincinnati, OH
Watershed Terrain & Precipitation Analysis | San Marcos Basin, TX

05/2025 - 08/2026

- Analyzed terrain, drainage, and precipitation patterns using DEMs, spatial interpolation, and ModelBuilder.
- Learned: Terrain analysis and GIS automation. Improve: Python automation and hydrologic modeling.

Watershed Database & Hydrologic Mapping | San Marcos Basin, TX

- Developed an integrated geodatabase to analyze land cover, stream networks, and streamflow patterns.
- Learned: Spatial data integration and hydrologic mapping. Improve: Database management and time-series analysis.

Urban Land Cover & Park Accessibility | Multiple U.S. Cities

- Analyzed urban land-cover patterns and identified areas with limited park access using GIS buffer analysis.
- Learned: Urban spatial analysis and environmental mapping. Improve: Demographic data integration and network-based accessibility analysis.
