

Shalom Lakew

2245758700 | shalom60.lakew@gmail.com | Marysville, WA

Summary

GIS professional with an M.S. in Geographic Information Systems and a B.S. in Earth and Environmental Science. Skilled in ArcGIS Pro, spatial analysis, hydrologic GIS, DEM processing, remote sensing, land-cover analysis, geodatabase development, ModelBuilder, and cartographic design. Experienced in applying geospatial methods to watershed, environmental, and urban analysis.

Experience

Watershed Terrain & Precipitation Analysis

San Marcos Basin, Texas | University of Cincinnati

- Analyzed DEM data using slope, aspect, flow direction, hillshade, and zonal statistics.
- Automated terrain processing with ModelBuilder and analyzed precipitation using Thiessen polygons and spline interpolation.

Watershed Database Development & Hydrologic Mapping

San Marcos Basin, Texas | University of Cincinnati

- Built a GIS geodatabase integrating watershed boundaries, NLCD land cover, catchments, stream networks, and USGS gauges.
- Analyzed land-cover and streamflow patterns and produced integrated watershed maps.

Urban Land Cover & Park Accessibility Analysis

Baton Rouge, Buffalo, Omaha & Cincinnati

- Compared NLCD land-cover patterns across three metropolitan areas using environmental and spatial analysis.
- Applied buffer analysis to evaluate Cincinnati park accessibility and mapped areas with limited green-space access.

Education

University of Cincinnati | Cincinnati, OH

Master of Science in Geographic Information Systems (GIS) | 08/2026

University of Illinois Chicago | Chicago, IL

Bachelor of Science in Earth and Environmental Science | 12/2024

Skills

ArcGIS Pro, Spatial Analysis, DEM Processing, Remote Sensing, Geodatabases, ModelBuilder, Hydrologic Analysis, Cartography, Python GIS (Coursework)

Languages

Amahric (Highly Proficient)
